

## ENDING HOMELESSNESS IN MARYLAND.

TOGETHER.

**Documentation Requirements** 

## **Documentation: Key Considerations**

 NOT about filling out forms: about <u>proving</u> that client meets the homeless definition and eligibility requirements

 Takes time: use an "as-needed" approach to help manage caseloads, don't get documentation that isn't necessary for the client's likely housing outcome

- Prioritize: documents that have duplicate uses in the system
  - SSI award letter can be proof of income, disability, and can substitute as a client's SSI card

## Categories of information requested

- Reporting: for grant requirements or data reporting
  - Examples: race, ethnicity, LGBT status

- Prioritization: to determine which clients have the highest need
  - Example: SSM, length-of-time homeless

• **Eligibility**: to determine what resources the client qualifies for

Examples: proof of homelessness, disability verification

- Case Management: to help case managers make matches and put together plans

  MARYLA
  - Examples: Vitals, employment history, criminal history
